**RE: Sawridge Trust - Action 1103 14112  
Sawridge First Nation – Intervenor/Transfer of Assets Application**

We write further to the email correspondence from Ms. Hutchinson of September 26, 2019. In the spirit of Ms. Hutchinson's request, we are enclosing those documents already produced in this litigation (from affidavits, exhibits, undertakings, interrogatories, questioning and affidavits of records) that may be relevant to the subject matter of the application currently scheduled for November 27, 2019. While the trustees will likely not rely on or reference the vast majority of these documents, we felt it best to disclose all of these documents so that the various parties did not need to go through the entirety of the productions and affidavits in this matter.

We note that there is duplication but we included duplicates where:

- (a) the signatures were different on the documents;
- (b) the documents had different writings or markings;
- (c) Undertaking 16 and Undertaking 50 had groups of documents and we have provided the individual documents as well as the Undertaking.

There is highlighting on some documents. In some cases this was deliberate to show the information that was relevant in a lengthy document. In some cases the highlighting was in the documents when we received the documents.

In addition, where an affidavit is produced we have only produced the relevant portion of the affidavit or the relevant exhibits.

Please note that we have attempted to be as comprehensive as possible on the basis of what we understood to be relevant to the transfer issue.

Yours very truly,  
**Dentons Canada LLP**
