Re: Sawridge Band Inter Vivos Settlement (1985 Sawridge Trust); KB Action No. 1103 14112

We write further to the June 5, 2024 Case Management Order which requires the parties to advise the Court by August 30 whether they intend to oppose or consent to the Sawridge First Nation's intervention application.

On review of the Sawridge First Nation's Application for Intervenor Status, we advise the Court that the OPGT is unable to consent to the application and thus will be opposing it.

As further required by the Order, we will have discussions with the Sawridge Trustees and the Sawridge First Nation to seek agreement on a schedule for the hearing of the SFN's Intervention Application as well as the filed application of the Sawridge Trustees.
